What I will be talking about

We HAVE to live lives that are set apart. Lives that create a tension between how we live and how the rest of the world lives. This tension is created in the decisions that we make, big or small, and the way we treat others.

Reverently work out as God works in, without misusing sound, so you can stand as a contrast with a bullet-proof reputation, holding forth the Gospel with your lives, and joyfully putting your circumstances second to whom you're pouring into.
